Teesside University's MEng (Hons) Instrumentation and Control Engineering degree will set you firmly on the path for high-earning potential as a professional engineer. You learn the intricacies of electronics, networks and linear control to create instrumentation and control engineering systems which have a range of applications.

Instrumentation and Control Engineering, MEng (Hons)

Instrumentation and control is a field applicable to many sectors of industry. It enables efficient and safe automatic control of large-scale continuous processes including nuclear power stations, oil refineries and chemical plants down to smaller batch operations such as manufacturing centres, breweries and other food production facilities.
