Description. Appropriate for one or two term courses in introductory Business Statistics. With Statistics for Management, Levin and Rubin have provided a non-intimidating business statistics textbook that students can easily read and understand.

Levin & Rubin, Statistics for Management, 7th Edition

Statistics for Management is a comprehensive textbook designed to help students understand the statistical concepts and applications used in business and management situations. As in case of the earlier editions, this edition too omits complex notations in favor of graphic and verbal explanations and aims to explain the subject with a practical orientation. Examples from the real world are ...
